

Instructions for Leg Extension Hardware

What's in the Box: (2) Extension Leg, (4) Bolts, (4) Nuts

Note: Leg extension accessory must be attached on all legs for proper usage.

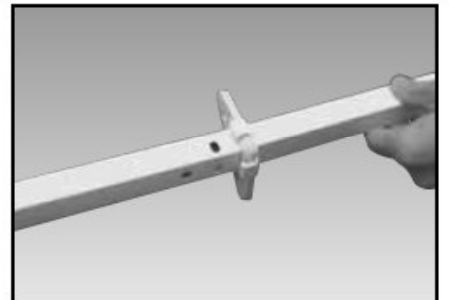

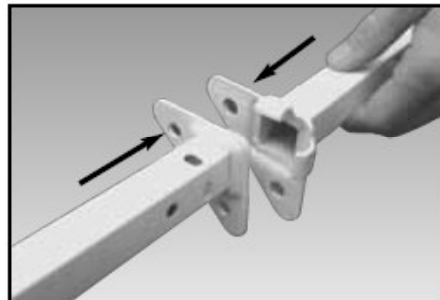

Step 1.

Lay shelter on its side and slide out inner leg.

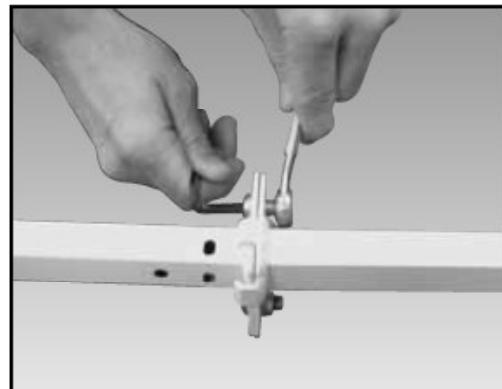

Step 2.

Attach leg extensions by sliding leg extension hooks over triangular foot. Make sure holes in foot and leg extension match.

Step 3.

Slide bolt through hole and secure with nut. Tighten with Allen and crescent wrench. Repeat and secure both bolts on all legs.

To disassemble, follow steps in reverse order.
